

Electrified

Last In Line

Only a fool would take his own life
Let it be ruled by sickness and strife
A life electric and ever so bright
Come break the mold or give up the fight

I have the power an absence of pride
Call me a savior a God up on high
And you will follow me till the end of

Time and Tide
Wait for no man alive
The good, the bad divide
The wolves are at the door
And I'm Electrified

I've said it all the truth can't be denied
Zealots have spoken and rumors can fly
Spite and destruction, Anti-Christ on high
The sheep will follow you till the end of

Time and Tide
Wait for no man alive
The good, the bad divide
The wolves are at the door
And I'm Electrified

Only a fool would take what is mine
Spoils of the war will never will be right
I'm not a dog, I'm not a slave
I'm not controlled I'm not afraid
And I'll never follow you in this life

Time and Tide
Wait for no man alive
The good, the bad divide
The wolves are at the door
And I'm Electrified

Time and Tide
Wait for no man alive
The good, the bad divide
The wolves are at the door
And I'm Electrified
