

Better Off Without You

Lastlings

Mmm thought I could do it all
But I need time and space now
So I took off all the weight now
Told me that you wanted me
Told me you could do it all
But you aren't who you say you are
Deep down there's so many scars

Did you ever want me back
You were never gonna change for us
I was begging on my knees for our love
But now I know
I gotta let go of you now

You lost me so quickly
Thought that I needed you
I'm better off without you
I'm better off without you
(I gotta let go of you now)
You lost me so quickly
I lost myself for you
I'm better off without you
I'm better off without you

I just need to let you know
That I just gotta let you go
You can't hold on to me now
'Cause I'm a different person now

Did you ever want me back
You were never gonna change for us
I was begging on my knees for our love
But now I know
I gotta let go of you now

You lost me so quickly
Thought that I needed you
I'm better off without you
I'm better off without you
(I gotta let go of you now)
You lost me so quickly
I lost myself for you
I'm better off without you
I'm better off without you

Gotta let you go
Gotta let you go
(I gotta let go of you now)
Gotta let you go
Gotta let you go
(I gotta let go of you now)
Gotta let you go
Gotta let you go
(I gotta let go of you now)
Gotta let you go
Gotta let you go
(I gotta let go of you now)
