

Far From Falling

Lastlings

I found myself in the city
Where I can only dream
And I lied with myself for a minute
I could see the sign, something good is coming

I'm far from falling
As long as I'm alive
Gonna make it out this time
Gonna make it out this time
'Cause I'm far from falling
As long as I'm alive
Gonna make it out this time
Gonna make it out this time

And I know that I can make this last forever
Last forever, last forever
And I know that I can make this last forever
Last forever, last forever

I spent so long in this mind
I know I've got to move forward
And I see my life right before my eyes
And I told myself something good is comin'

'Cause I'm far from falling
As long as I'm alive
Gonna make it out this time
Gonna make it out this time
'Cause I'm far from falling
As long as I'm alive
Gonna make it out this time
Gonna make it out this time

And I know that I can make this last forever
Last forever, last forever
And I know that I can make this last forever
Last forever, last forever

I will make it last forever
I will make it last forever and ever
I'll make it far now I know where I belong
And I would tell her now, "I will never do you wrong"
And I would hope myself like I never did before
Like I never did before

And I know that I can make this last forever
Last forever, last forever
And I know that I can make this last forever
Last forever, last forever
And I know that I can make this last forever
Last forever, last forever
And I know that I can make this last forever
Last forever, last forever

I'm far from falling
I know I've got so much left to give
I'm far from falling

I know I've got so much left to give, so much left to give

It's made me see, look at life in a different way really. Not only when you was younger, when I was younger, I just wanted things quickly, but now 'cause I'm involved in something constructive for the first time in my life, I'm prepared to wait. You know what I mean? I'm not in no hurry.
