

Stay with me
You're lost in a world away from me
I always thought that we were meant to be
But now you only lie in my memories
Stay with me, oh
Set me free
Floatin' around in gravity
Your love is all I'll ever need
It's burnin' here inside of me
Stay with me

I see you in everythin'
Everywhere I go
If I could ask for anythin'
I'd ask that you don't go

When I wake up (Wake up)
I know it's you that I want
Show me more, show me more, show me more
If I'm all yours
When I wake up (Wake up)
I know it's you that I want
Show me more, show me more, show me more
If I'm all yours (If I'm all yours)

Will you run away with me?
Let's get away from reality
Away from the lights and towards the sea
Not lookin' for trouble, but I'm on my knees
Stay with me, oh
Set me free
Floatin' around in gravity
This is the place where I wanna be
I see you in everythin'
Everywhere I go
I see you in everythin'
Everywhere I go

Now we're on hold
And I fear that we won't get to begin again
Those nights were long and I thought I had lost my friend
Can't we begin again?
Can't we begin again?

I see you in everythin'
Everywhere I go
If I could ask for anythin'
I'd ask that you don't go

When I wake up (Wake up)
I know it's you that I want
Show me more, show me more, show me more
If I'm all yours
When I wake up (Wake up)
I know it's you that I want
Show me more, show me more, show me more
If I'm all yours (If I'm all yours)

I thought that you'd always be here forever
And in my head, I wanted to see us together
I thought that you'd always be here forever
And in my head, I wanted to see us together

Now we're on hold
And I fear that we won't get to begin again
Those nights were long and I thought I had lost my friend
Can't we begin again?
Can't we begin again?
