

I've Got You

Lastlings

(You)

What you want is here
What you needed still awaits
I can't help but see
What you've left behind
Underneath it all
A broken piece that you can't escape
Can you feel it deep inside
Coming up for air?

I'm
Not reaching out again
But I
Don't want you to forget

I've got you
And I don't want to waste your time
I've got you
Every time you cross the line
I'll be there
I've got you

What you want is here
You're searching for a familiar face
There's so much more to see
So what are you waiting for?
Underneath it all
There's a feeling you can't escape
You're turning out to be
What you feared to be

You've got somewhere
You've got somewhere
You want to be, all or nothing
It's all or nothing

I'm
Not reaching out again
But I
Don't want you to forget

I've got you
And I don't want to waste your time
I've got you
Every time you cross the line
I'll be there
I've got you
Every time you cross the line
I've got you

Every time you cross the line
I'll be there
I've got you
