

Learning To Love

Lastlings

In my hands
I'm waiting for the future to follow me up 'cause I'm awake
Why am I afraid, hmm, to build a whole new story?
Thought I was never enough, but I have changed

Don't you forget me now
I know that I'll see you again
You're always on my mind
So give me a chance to make this right

I'm still learning to love
Learning to love you right
I'm still learning to love
I know I can treat you right
And it's running through my head (Running through my head)
All the things that you have said (Things that you have said)
I'm still learning to love
Learning to love you right

Love you right, mm
Love you right, mm-mm

And under the stars tonight
I'm dreamin' of pullin' you closer
And when our worlds collide, I'll know we've changed
I know we will, we will escape the night
I know that I'm far from home
But will never be alone
'Cause I always have you on my mind
(On my mind, oh)
(On my mind, oh)

Don't you forget me now
I know that I'll see you again
You're always on my mind
So give me a chance to make this right

I'm still learning to love
Learning to love you right
I'm still learning to love
I know I can treat you right
And it's running through my head (Running through my head)
All the things that you have said (Things that you have said)
I'm still learning to love
Learning to love you right

Love you right, mm
Love you right, mm-mm
Love you right
Love you right

I'm still learning to love
Learning to love you right
I'm still learning to love
I know I can treat you right
And it's running through my head (Running through my head)
All the things that you have said (Things that you have said)

I'm still learning to love
Learning to love you right
