

Noise

Lastlings

Skyline changing
I can feel you there
On my shoulder
Breathing different air

Don't let me go now
We've got time
And all these walls I've built up
Won't ease my mind

'Cause I want noise
In quiet places where we will go
I want noise
I want a reason to call you my home
I want noise
In quiet places where we will go
I want noise
I wanna hear your voice
'Cause I'm calling out

Please don't let me go
Wish you could hold me close
'Cause now I'm dancing on my own
And I'm still missing you at home
And all our midnight talks
'Cause no one knows me like you do
I'm dancing on my own

We've fallen out
Where have you gone?
I need you now
I need you now
And I would do it all
Just to hear your voice
Will you lift me up
When I'm alone tonight?

I want noise
In quiet places where we will go
I want noise
I want a reason to call you my home
I want noise
In quiet places where we will go
I want noise
I wanna hear your voice
'Cause I'm calling out

Please don't let me go
Wish you could hold me close
'Cause now I'm dancing on my own
And I'm still missing you at home
And all our midnight talks
'Cause no one knows me like you do
I'm dancing on my own

(If you're ready come and get me)
(If you're ready come and get me)

If you're ready come and get me
'Cause I'll never let you go
If you're ready come and get me
'Cause I'm dancing on my own
If you're ready come and get me
'Cause I'll never let you go
If you're ready come and get me
'Cause I'm dancing on my own

'Cause I'm dancing on my own
'Cause I'm dancing on my own
'Cause I'm dancing on my own

(If you're ready come and get me)
(If you're ready come and get me)
