Perfect World

Lastlings

In a perfect world, I'd lie next to you
Would you give a time so we can see this through?
Spring is warm, but I'm still feeling blue
I found a place where I still think of you

But in a perfect world
You'd be by my side for the night

I know you needed my love
And I still miss your voice coming through the phone
When you said to me, "Darling, I'd never let you go"
I still miss your voice coming through the phone

In a perfect world, I'll have every chance
To love myself and feel alive again
And if we've grown apart, then it won't be over, mm
'Cause I've spent many moments learning and growing on my own

But in a perfect world
You'd be by my side for the night

I know you needed my love
And I still miss your voice coming through the phone
When you said to me, "Darling, I'd never let you go"
I still miss your voice coming through the phone

I felt you at my fingertips, but you've gone cold
There's no one else that I would see, but I can't feel you anymore

I know you needed my love
And I still miss your voice coming through the phone
When you said to me, "Darling, I'd never let you go"
I still miss your voice coming through the phone

You said you'd never wanna be alone
(Never wanna be a—, never wanna be a—, never wanna be a—)
You said you'd never wanna be alone
(Never wanna be a—, never wanna be a—, never wanna be a—)
You said you'd never wanna be alone
(Never wanna be a—, never wanna be a—, never wanna be a—)
You said you'd never wanna be alone
(Never wanna be a—, never wanna be a—, never wanna be a—)

You said you'd never wanna be alone
You said you'd never wanna be alone
