I love the way you want me too
But you never really want me too
Push me 'till I catch my breath
I can feel it beating through my chest
I love the way you want me too
But you never really want me too

Why are you afraid
Why don't you want to save me
Push me far away
Now you've got me disappearin'
I'm waitin'
I'm waitin' on you
I'm waitin' for you
Why are you afriad
Why don't you want to save me
Push me far away
Now you've got me disappearin'
I'm waitin'
I'm waitin' on you
I'm waitin' for you

I love the way
I love the way you
I love the way
I love the way you

Can't you help me feel so empty
It's such a shame
Can't you help me feel so empty
Not the one to blame
Can't you help me feel so empty
It's such a shame
Can't you help me feel so empty

I love the way you want me too
But you never really want me too
Push me 'till I catch my breath
I can feel it beating through my chest
Not the same when you're in my head
Speaking words that you never said
I love the way you want me too
But you never really want me too

I love the way you want me too-
I love the way
I love the way you-
But you never really want me too-
I love the way
I love the way you-
Push me 'till I catch my breath-
I love the way
I love the way you-
I can feel it beating through my chest-
I love the way
I love the way you want me too
