

2019

late night drive home

It's 1AM, I'm at the corner store
You bought some ChapStick, now we're heading home
I know you're tired, but we were on fire on the dance floor
I felt alive for a little while, but now we want more

Nights where we go wild
Can I stay with you for a while?
You make me feel okay
We can stay up real late
Talk about whatever you like
I don't care as long as you smile
All I want is to be with you

It's 2AM, and I'm dropping you off
You sit in my car and, man, you can talk
Well, that's alright, I let you take your time, I really don't mind
I'll sit there in silence as you transcribe all the things you enjoy

Your color falls on me
The way autumn falls off of the trees
And now we want more

Nights where we go wild
Can I stay with you for a while?
You make me feel okay
We can stay up real late
Talk about whatever you like
I don't care as long as you smile
All I want is to be with you

Am I talking too much?
Am I being too loud?
Can't you tell that I'm nervous?
Can't you see my standout?
Ah, ah-ah

On my way home, I saw the corner store
You left your ChapStick on the side of my door
I'm so tired, but we were so tired
I'm still tired, but we still want

Nights where we go wild
Can I stay with you for a while?
You make me feel okay
We can stay up real late
Talk about whatever you like
I don't care as long as you smile
All I want is to be with you

And now I'm off to bed
Your voice is in my head
But I still want more

Nights where we go wild
Can I stay with you for a while?
You make me feel okay
We can stay up real late

Talk about whatever you like
I don't care as long as you smile
All I want is to be with you
