

Aphrodite

late night drive home

Darling you always know what to say
That's okay
Darling you always have your way
That's okay

Babe with me we listen to our favorite songs
Kiss me with the greenest sleeve between each one
I tell you if you want to hear with no fear
After all happened to this year

Sitting down at the [?]
Rain drops dripping down to your cheek never letting you sleep

Darling you always know what to say
That's okay
Darling you always have your way
That's okay

Babe with me we listen to our favorite songs
Kiss me with the greenest sleeve between each one
I tell you if you want to hear with no fear
After all happened to this year

Sitting down at the [?]
Rain drops dripping down to your cheek never letting you sleep

[?] with me we listen to our favorite songs
Kiss me with the greenest sleeve between each on
I tell you if you want to hear with no fear
After all happened to this year
