

## Freaks

late night drive home

Don't kill me, just help me run away  
From everyone, I need a place to stay  
Where I can cover up my face  
Don't cry, I am just a freak

I am just a freak  
I am just a freak  
I am just a freak

My head is filled with parasites  
Black holes cover up my eyes  
I dream of you almost every night  
Hopefully, I won't wake up this time

I won't wake up this time  
I won't wake up this time  
I won't wake up this time
