

Leave This Town

late night drive home

I want to push my teeth, when I saw your [?]
I want to cut my tongue, when I speak to you
I want to leave this town, when I am [?]
I want to calm you down, please don't hold me down

Baby, I need to leave this town alone
Baby, I need to calm down alone
Baby, I need to remind us again
Baby, I need to remind myself

I want to shut my eyes, and see you through
I want to fly away, and take me away
I want to go back to town, where everything's fine
I want to calm you down, just don't hold me down

Baby, I need to leave this town alone
Baby, I need to calm down alone
Baby, I need to remind us again
Baby, I need to remind myself
Baby, I need to leave this town alone
Baby, I need to calm down alone
Baby, I need to remind us again
Baby, I need to remind myself
