

Sleeping In Cars

late night drive home

They're throwing chairs in the middle of the night
You wonder why all they do is fight
Tonight (tonight), we'll cry (we'll cry) in the streets (in the
streets)
Just open up the window
You won't make a sound (you won't make a sound)
Pretend we're normal people
Let's just get out of here

Accept the fact that they're already gone
They can't hurt you anymore
I'll be here for you with the radio on
In the nighttime, we're sleeping in cars

In the nighttime, we're sleeping in cars
Fairy lights on, come closer to my heart

And we can live the rest of our lives
Regretting everything that never went right
Tonight (tonight), we'll cry (we'll cry) in the streets (in the
streets)
Our eyes are locked with the beat of the song, dear
And once we kissed all our demons were gone, dear
Never want to go back home
But we can sleep on the side of the road

(Momentary, full of scenery)
(Must be dreaming, chair receding)
(No one is listening, you're sitting right next to me)
(My heart starts aching, why am I shaking?)
(In the night, in the night)

In the nighttime, we're sleeping in cars
Fairy lights on, come closer to my heart

(We're sleeping)
(We're sleeping)
(We're sleeping)
(We're sleeping in cars)
