

## Star Love

late night drive home

Serotonin before sleep  
She'll include me  
It's hell-inducing  
I'll conclude this state of mind

Now show me how to love myself  
My head is full of ghosts and I'll drown  
Meticulous set of problems that I've found  
So show me how to love myself

My eyes starve for patterns  
In the dark when we depart

I'm not alone now, so I'll  
I'll sleep  
I'll sleep  
I'll sleep

So show me how to love myself (I'll sleep)  
My head is full of ghosts and I'll drown (I'll sleep)  
Meticulous set of problems that I've found  
So show me how to love myself

So show me how to love myself  
My head is full of ghosts and I'll drown  
Meticulous set of problems that I've found  
So show me how to love myself
