

Television Romantic

late night drive home

I want to go to bed
I want to go to bed
I saw you at the venue by the bathroom
Stop living in my fantasy, I just want you right next to me

And I hope you're alright
And I hope you're

And don't go to bed
Just call me instead
When the night comes, all I ever do is run
When you call, all I ever do is run

You came into my house again, I left you here to see my friends
And then you stood and went
Cut my face into yours, show me how you bleed
Kiss my face till I'm gone, I wanna know how you see

I hope you're alright
And I hope you're

And don't go to bed
Just call me instead
When the night comes, all I ever do is run
When you call, all the loneliness is gone

(Leaving till I go away, away)

I just live inside my head
It's a constant fight and I'm out of breath
When I just want to go to bed
When I just want to go to bed
I just live inside my head
It's a constant fight and I'm out of breath
When I just want to go to the bed
When I just want to go

(Oh, oh)

And don't go to bed
Just call me instead
When the night comes, all I ever do is run
When you call, all the loneliness is gone
Don't go to bed
Just call me instead
When the night comes, all I ever do is run
When the night comes, all I ever do is run
