

We Love U

late night drive home

I know that you'll be alright, and
I know it'll be just fine, and
I know that you wanna ride with us
And I know it'll be just fine, and

We know you, you want to
And it's fine, just come and chill with us
I know that you wanna go home
But it's fine, just come and leave with us
We'll take you to your house
And we can ride it on with us

And I know that you just got here
And then I know that you don't wanna go
But it, it'll be just fine, I'll see you tomorrow
It will be alright

I know that you'll be alright, and
I know it'll be just fine, and
I know that you wanna ride with us
And I know it'll be just fine, and

I know you, you want to
And it's fine, just come and chill with us
I know that you wanna go home
But it's fine, just come and leave with us
We'll take you to your house
And we can ride it on with us
I know you, we love you
And it's fine, just come and chill with us
I know you, we love you
We can ride it on with us
I know you, we love you
And it's fine, just come and chill with us
We know you, we love you
We can ride it on with us

We can look at the Sun and soak in the view
We can ride in the bus and change our hues
We can do all sorts of things, we can look at the trees
And build all the walls around the leaves
We can look at the Sun and soak in the view
We can ride in the bus and change our hues
I know you, you want to
I know you wanna hang with us
I know you, you want to
You wanna come and hang with us

I know that you'll be alright, and
I know it'll be just fine, and
I know that you wanna ride with us
And I know it'll be just fine, and

We know you, you want to
You wanna come and hang with us
But you don't, you wanna go home
And that is fine, just hang with us

I know that you'll be alright, and
I know it'll be just fine, and
I know that you wanna ride with us
And I know it'll be just fine, and

I know you, you want to
You wanna come and hang with us
But you don't, you wanna go home
And that is fine, just hang with us
I know you, you want to
You wanna come and hang with us
But you don't, you don't wanna go home
