

Do You Love Me?

Latif

It's consuming girl can we talk (talk talk)
Got some things I wanna talk to you (to you)
That I been holdin inside for so long
I can't explain, I'm not the same, I'm bout to blow up
(blow up)
Cut me off from the only love that I've known
In a room so cold alone can't accept that now your gone
But I can't give up oh no without a fight
And with all of me dear I intend to save our love

I don't know how you spend your days but
Baby I can't lie I'm still just wasting
Thing about what I should have done different
See now I know

Is there anyway to change
way to mend your heart girl
there's got to be away
just saying do you still love me or not girl
Please just say you do
No you can't imagine how it feels
I'm speaking for like every man that's felt this way
Do you love me...and do you love
And say you love...forever

Who am I to say your resentments not real
I admit I know I been such a fool
I don't want my heart feelin this blue
A second longer girl I want you what can I do

While I'm breathing walkin on this earth
I'll respect my womans worth
And always I'll put her first (first)
Can you find compassion
In your heart I'm askin is there still some love

I don't know how you spend your days but
Baby I can't lie I'm still just wasting
Thing about what I could have done different
See now I know

Is there anyway to change
way to mend your heart girl
there's got to be away
just saying do you still love me or not girl
Please just say you do
No you can't imagine how it feels
I'm speaking for like every man that's felt this way
Do you love me...and do you love
And say you love...forever

I'm asking...I'm asking baby
On my bended knees girl do you love me
Still do you love me
Forever baby
You can tell I feel it
Girl you know I meant you

Tell me, tell me, tell me, tell me, baby
Do you love me ? Yeah
