

Forget-Me-Not

Laufey

Hold up your chin
Deep breath in
It's alright
Here I begin missing him
It's my plight

Nothing worth having
Has come to me easily
I've sacrificed you
All of you, completely

Love you forever, don't let go of me
I left my own homeland to chase reverie

Gleymdu mér aldrei þó ég héðan flýg
Gleymdu mér aldrei, elskan mín

I miss the wind
Stone-cold kiss on my cheeks
Bends in your body
The hope of your spring

Millions now hear my soliloquy
I'm still that child on a black sand beach

Love you forever, don't let go of me
I'll die if I wither in your memory

Gleymdu mér aldrei þó ég héðan flýg
Gleymdu mér aldrei, elskan mín
