

**Hi**

**Laufey**

I want to say hi to you  
I have no reason to  
But I thought of you while driving today  
With Louis on the radio  
I remembered how you loved him so  
We'd play his records, dance real slow

I guess  
That I'm missing you  
I know it's out of the blue  
I haven't thought of you for more than weeks  
Now I'm dreaming of the moonlight glow  
On your little studio  
We both knew I had to go away

Away to a place  
Much bigger than this  
Away from the land of fish and sea  
To something new, a skyline view  
4300 miles from you

It's complicated  
You are my hometown love  
Moved to the city of  
Angels and I wish that you were here  
Now I'm in my empty studio  
Don't dare to call, don't dare to know  
If you want to say hello to me

Now I'm dreaming of your moonlight glow  
From my empty studio  
Hoping that you'll say hello to me
