

Night Light

Laufey

Up the staircase, first door to your left
Walls of white, a window, 10x10
A treasure chest of everything I've ever known
Safe inside my childhood home

Every record I have ever heard
I know every melody and every word
A little book of every dream I ever had
Sleeping in that twin sized bed

All of the laughter
All the sleepless nights
Waiting for ever after
Snow falling outside, keeping on the night light

Cardboard boxes covering the floor
Guess I won't be living in here anymore
Take down the posters of the pop-stars on the wall
Empty room, it looks so small

All of the laughter
All the sleepless nights
Waiting for ever after
Snow falling outside, keeping on the night light

Take down the posters of the pop stars on the wall
Empty room it feels so small

All of the laughter
All the sleepless nights
Waiting for ever after
Snow falling outside, keeping on the night light
