LAUNDRY DAY

Freedom, freedom
Lead on
Read up, speak up
Dream on

Step into your light and shine
Step into the forest, ignite
Poppin' like the fourth of July
You rock me like it's '79

We got the stamina
We got the planet
We got the wind in our hair feeling manic
We throwing rocks on the water and gamblin'
We jumping off of the docks hand in hand it's

Freedom, freedom
Lead on
Read up, speak up
Dream on

How do I walk a million miles at once?
Where do I turn when all the walls are gone?
You speak of sunsets like I don't see them
I'm running without a reason
I'm ditching the leader just for fun

We got the stamina
We got the planet
We got the wind in our hair feeling manic
We throwing rocks on the water and gamblin'
We jumping off of the docks hand in hand it's

Freedom, freedom
Lead on

I'm finally swimming
Can you see me?
I swear I've never moved this freely
I'm runnin', I'm runnin'
I'm runnin' faster than you
I got this feeling, this feeling
This feeling I'll never lose

If you could take it now, why would you wait?
Would you be different or remain the same?
You spent your time on the bleachers
Said all your hi nice to meet ya's
Now you're a rebel with something to say
So say something to me
I'm swinging from the trees
I feel like Hercules
I pull that sword from the stone
When I'm walking down the street

I'm finally swimming
Can you see me?

I swear I've never moved this freely
I'm runnin', I'm runnin'
I'm runnin' faster than you
I got this feeling, this feeling
This feeling I'll never lose

We got the stamina
We got the planet
We got the wind in our hair feeling manic
We throwing rocks on the water and gamblin'
We jumping off of the docks hand in hand it's
We got the stamina (freedom, freedom)
We got the planet (lead on)
We got the wind in our hair feeling manic (freedom, freedom lead on)
We throwing rocks on the water and gamblin' (freedom, freedom lead on)
We jumping off of the docks hand in hand it's (freedom, freedom)

Freedom, freedom
Lead on
Read up, speak up
Dream on
