

# Choking Under The Pressure

## LAUNDRY DAY

These days go so fast  
I just can't keep track  
Saw you in the park on a summer day  
Now I'm holdin' your jacket

All the things I can't say  
Like take me away  
And let's get married  
All the things that you do  
Cause when you smile  
I smile too

In this game of love  
I just don't have the practice  
Knew you were the one on that summer day  
Now it's cold in Manhattan

All the things I can't say  
Like take me away  
And let's get married  
All the things that you do  
Cause when you smile  
I smile too

I wanna know you more than anybody else  
The things that you're feeling  
I felt  
Look how I'm beaming when you offer up your help  
Right now

All the things I can't say  
Like take me away  
And let's get married (And you know I feel it too)  
All the things that you do (It's the things that you do, the things that you do)  
Cause when you smile  
I smile too
