

Ginger

LAUNDRY DAY

Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me

Got new shit, don't feel it
Where the fuck's my wifi
Polite head nod
Schools a job
Can't wait for the nighttime
No label not stable
Can't wait for the limelight
When the time's right
Think about life
It don't feel right
It don't feel right

Got some friends that I used to know
When did I lose it all
Now time passes slow
When you asked me if I wanted this
If I'd fight for this, take my life for this

Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me

Things've changed round me
Re-arranged round me
I thought I was fine
I thought we were fine
I thought you were mine
But it's different now
Changed the focus now
No more wasting time
No more you and I
What a ride or die?
Where the groupies at?
Where's my phillies hat?
Soon I'll be a star soon a fancy car
Momma told me I'd be going far
So I'm going hard
Always raising bars
See these battle scars

I ain't seen it all but I dreamed about it
I ain't seen it all but I dreamed about it
I ain't seen it all but I dreamed about it
I ain't seen it all but I dreamed about it

Hard times got me like hard times got me
Hard times got me like hard times got me

Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me
Hard times got me like hard times got me
