# Green Vision

**LAUNDRY DAY**

Stop and watch me!
I ain't walkin' on my same two feet
I keep wakin' up angry
And I go to bed sad

I got this green eyed vision
I can't stop myself
I miss that grade school livin'
Where I didn't need no help

I can't get it from you
I can't get it from you
I can't get it from you
So I gotta call a new dude

But what's it cost me?
I ain't checkin' back in on myself
I didn't learn what they taught me
While I still got my health

I got this green eyed vision
I can't help myself
You just want change this instant
And I didn't take that well

I can't get it from you
I can't get it from you
I can't get it from you
So I gotta call a new dude

I don't know where my mind has been
I'm tryna reign it in
I'm focused in on space and time
But time just seems to pass me by

And I just keep red eye sittin'
I can't move myself
I asked for weed this Christmas
No one made that sale

It's like sleepwalkin' on thin air
When you can just shut off your mind
But when the haze begins to lift off
Then you've got to bang that line

I can't get it from you
I can't get it from you
I can't get it from you
(No, oo, oh, oh)
I can't get it from you (I can't get it from you)
I can't get it from you (I can't get it from you)
I can't get it from you (I can't get it from you)
So I gotta call a new dude

One more time
This is my final encounter
With downward spirals

I don't know where my mind has been
I'm tryna reign it in
I'm focused in on space and time
But time just seems to pass me by

Stop and watch me
Stop and watch me
(I got this green eyed vision)
Stop and watch me
(I got this green eyed vision)
Stop and watch me
(I got this green eyed vision)
Stop and watch me
(I got this green eyed vision)
Stop and watch me
(I got this green eyed vision)
Stop and watch me
(I got this green eyed vision)
Stop and watch me

Can't get it from you
