

# Honey

## LAUNDRY DAY

Honey got me fooled, got me slipping up  
Honey got me feeling like I'm not enough  
Honey got me fooled, got me slipping up  
Honey got me feeling like I'm not enough

Baby cut me off  
I don't get the love that I want  
Give away my heart for a month  
Giving me a hug when you're drunk  
Did you know you're fake when you're drunk  
Eighth grade I was opening new doors, that's why I had a crush on my neighbor  
Kissed her on the stairs, then we fell off  
Guess it wasn't meant to be  
Remember what you said to me?  
You said "get yourself together, be a man for me"  
Never gonna be a man  
Never gonna be a man

Ooh (hey, hey)  
You gonna leave me like that? Like, like, ooh (hey, hey)  
You gonna leave me like that? Like, like, ooh (hey, hey)  
You gonna leave me like that? Like  
You gonna leave me like that? Like, like, like, ooh

Lonely at the func, I can only see what I want  
She gon' go ride with a stud  
Imma go and hide on the sun  
Baby, I'll be back in a month  
I was cuffed up in the mud 'til you came  
Slippin' up, trippin' up, hadn't been thinking right  
Telling me about you day  
I don't care about your friends  
You don't care about me though  
"Why can't we be perfect like em?"  
Baby, I ain't perfect  
Learned from my mistakes to make more mistakes  
Had to end it all just to start again  
Baby, cut me off but I fixed me up  
Imma need some lovin' in a sippy cup

I'm not with her I'm just coasting (got me)  
Never been more than an option (got me)  
When I knew it, I was gone (got me)  
When I knew it, I was gone (got me feeling like I'm not e-)  
How would I know she was watching? (got me)  
Always said all the wrong things (got me)  
When I knew it, I was gone (got me)  
When I knew it, I was gone (got me feeling like I'm not e-)  
I'm not with her I'm just coasting (got me)  
Never been more than an option (got me)  
When I knew it, I was gone (got me)  
When I knew it, I was gone (got me feeling like I'm not e-)  
How would I know she was watching? (got me)  
Always said all the wrong things (got me)  
When I knew it, I was gone (got me)  
When I knew it, I was- (got me feeling like I'm not e-)

Ooh (hey, hey)  
You gonna leave me like that? Like, like, Ooh (hey, hey)  
You gonna leave me like that? Like, like, Ooh (hey, hey)  
Why'd you gotta leave me like  
Why'd you gotta leave me like, like  
Why'd you gotta leave me like, like, ooh

Honey got me fooled, got me slipping up (like, ooh)  
Honey got me feeling like I'm not enough  
Honey got me fooled, got me slipping up (like, ooh)  
Honey got me feeling like I'm not enough  
Honey got me fooled, got me slipping up  
Honey got me feeling like I'm not enough (why'd you gotta leave me like, ooh  
)  
Honey got me fooled, got me slipping up (ooh, ooh, ooh)  
Honey got me feeling like I'm not enough  
Honey got me fooled, got me slipping up  
Honey got me feeling like I'm not enough  
Honey got me fooled, got me slipping up  
Honey got me feeling like I'm not enough  
Honey got me fooled, got me slipping up  
Honey got me feeling like I'm not enough  
Honey got me fooled, got me slipping up  
Honey got me feeling like I'm not enough

Tell my friends that I've been broken  
I don't live alone, but I'm lonely  
Ain't nobody hitting up my phone, like they owe me  
Everybody say what they want on the internet  
Tweets and the texts, and I hope somebody hearin'  
People listen to my music, I ain't even seen their face  
One more like up on this picture and I'll see another day  
I've been tryna make a record but I'm always in a play  
People always say we never gonna make it  
Man what did you say?  
(Honey got me fooled, got me slipping up)  
(Honey got me feeling like I'm not enough)  
What did you say?  
(Honey got me fooled, got me slipping up)  
(Honey got me feeling like I'm not enough)  
What did you-  
What did you say?  
What did you-
