

# Jane

## LAUNDRY DAY

Say to me, it don't get better than this  
It don't get better than this, no  
It don't get better than this  
It don't get better than this  
It don't get better than this

I need something to believe in  
Tell the truth, I don't got a lot of friends even  
It's okay, I'm awake while they all sleeping  
Got along cause we all breathing

Didn't know that shooting stars could fall  
From planets up above us all, us all

Tryna put you into focus  
It's getting hard when you wanna make the world notice  
Not the only one who knows this  
Sun God, like a Lotus

Didn't know that shooting stars could fall  
But now I think I've seen them all, them all

But Jane  
I don't know you but you  
Make me feel a way  
Feel a way  
It's hard to say  
But these feelings just don't go away  
Jane

Say to me, it don't get better than this  
It don't get better than this, no  
It don't get better than  
It don't get better than this  
It don't get better than

I've been working on myself  
Puttin' all of my problems on the top shelf  
Getting used to the farewells  
Long talks on the stairwells

Had a feeling you could be the one  
But I'm afraid I've said too much, too much

But Jane  
If we were to fly to Mars today  
I'd hold your hand all the way  
And shooting stars and outer space  
Would never fade

Oh Jane  
I don't know you but you  
Make me feel a way  
Feel a way  
It's hard to say  
But these feelings just don't go away  
Jane

Say to me, it don't get better than this  
It don't get better than this, no  
It don't get better than this  
It don't get better than this  
It don't get better than this

Say to me  
Say to me  
Say to me
