

## Lawn

## LAUNDRY DAY

I was just chillin' on the lawn  
We was just try'na find the labels  
So they could they scream our name to the stars  
Lighters in the sky, summer fable  
I think I was lost  
I'm still pretty lost, but I'm stable  
What if this was gone?  
What if we just lost it all?

Maybe I'll be here to say  
Playin' games  
Runnin' round  
In your face  
Takin' names, sit in place  
We been dreamin' big  
In a world so small  
I'm so tired of face to face  
I got lots of dreams to chase  
I've been playin' cards with my father's son

I'll be feelin' better on the other side  
Grass is always greener on the other side  
I'll be feelin' better on the other side  
Get me to the other side  
I'll be feelin' better on the other side  
Grass is always greener on the other side  
I'll be feelin' better on the other side  
Get me to the other side

Summer rain coverin' the lawn  
I was just try'na make a movie  
So I could hear my name from a star  
Walk up on the stage like a groupie  
I didn't know the cost of being such a damn lil cutie  
I shrunk in the wash, then I sorta lost my fall

Maybe I'll be here to say  
Playin' games  
Runnin' round  
In your face  
Takin' names, sit in place  
We been dreamin' big  
In a world so small  
I'm so tired of face to face  
I got lots of dreams to chase  
I've been playin' cards with my father's son

I'll be feelin' better on the other side  
Grass is always greener on the other side  
I'll be feelin' better on the other side  
Get me to the other side  
I'll be feelin' better on the other side  
Grass is always greener on the other side  
I'll be feelin' better on the other side  
Get me to the other side

Now I'm running away from the look on your face

So baby turn the lights out  
Asked me what I would say if you asked me to stay  
And then I turned the lights out  
Now I'm running away from the look on your face  
So baby turn the lights out  
Asked me what I would say if you asked me to stay  
And then I turned the lights out  
I was just chillin' on the lawn  
We just try'na find the labels  
I was just chillin' on the lawn  
Lighters in the sky, summer fable  
Now I'm running away from the look on your face  
So baby turn the lights out  
Asked me what I would say if you asked me to stay  
And then I turned the lights out  
Now I'm running away from the look on your face  
So baby turn the lights out  
Asked me what I would say if you asked me to stay  
And then I turned the lights out
