

MEDICINE

LAUNDRY DAY

Daisy
She takes me back to brighter days
Maybe
She'd take me up to a higher place
Crazy
She always knows what just to say
Daisy
Pick up and answer right away

Never wanna be someone else's lover
Never wanna be someone else's friend
Never wanna be someone else's problem
Never wanna be someone else's man

She's gotta smile that makes it feel like medicine
She's gotta smile that makes it feel like medicine
(Uh-uh)

Sleepin'
Alone in my bed feels tortuous
Smokin'
Outside my windows, people dance

Never wanna be someone else's lover
Never wanna be someone else's friend
Never wanna be someone else's problem
Never wanna be someone else's man

She's gotta smile that makes it feel like medicine
She's gotta smile that makes it feel like medicine

Slow down, daisy
No rush
We could just lay here
Till the sun's up, baby (Ah)

Never wanna be someone else's lover
Never wanna be someone else's friend
Never wanna be someone else's problem
Never wanna be someone else's man
Knew from the very first time I saw you
Never wanna see another face again
Never wanna be someone else's lover
Look in your eyes like medicine

She's gotta smile that makes it feel like medicine
She's gotta smile that makes it feel like medicine
She's gotta smile that makes it feel like medicine
She's gotta smile that makes it feel like medicine
