LAUNDRY DAY

Wish I could take you with me
So you could see the city
I know I've made mistakes
But soon you will forgive me
Lately the time's been changin
Don't think my mind can take it
All this stress inside my head
Wish I could skip the day shift
Been livin for the night shift
At night I make a difference
Someone said I'd change the world
That's how my mind's been driven
What is this life I'm livin
I'm feelin tied down
Just wanna make a livin
And make you all proud
I wanna see you sittin in the Grammy crowd
I wanna see the bullies that've pushed me 'round
If they could see me now
If they could see me now

Can't wait to call: "Mom, I'm on the radio!"
"Mom, I really made it on the radio!"
Now you can hear me on the radio
Windows down, cruisin with the radio
I can see it now, just the boys and me
No hands on the wheel, it's a fantasy
I can see it now, but it's just a dream
I keep dreamin 'fore I go to sleep

I don't think you need me but I'm fine, in case you cared at all
I don't think you need me but I'm fine, in case you cared at all
I don't think you need me but I'm fine, in case you cared at all
I'm gon be a star and I'll be fine, in case you cared at all
