

## Fool Moon

Laura Bell Bundy

The summer night is soft and still.  
As I descend this lonely hill  
Into the city lyin' down below.  
I don't need to see the sky  
The emptiness I feel inside  
Tells me something I already know.

There's a ... (Must be a...)  
Fool moon out tonight.  
And it's shining bright on the lonely lives and the love they'll  
I never find.  
And like a fool I'm thinking of you and I wanna cry.  
Must be a fool moon out tonight.

The smoky bar is dark and loud  
I'm running with a swinging crowd  
So many here together so alone  
They're making moves, it's gettin' late  
The desperate game accelerates  
They're willing to go anywhere but home

There's a ... (Must be a...)  
Fool moon out tonight.  
And it's shining bright on the lonely lives and the love they'll  
I never find.  
And like a fool I'm thinking of you and I wanna cry.  
Must be a fool moon out tonight.
