

One By One

Laura Cantrell

One by one we broke each vow we made

It was you who lied
It was me who paid

As sure as there's a heaven beyond the sun

We'll pay for our lies one by one

My plans and hopes have tumbled down
My castle of dreams plunged to the ground

How can you face me after what you have done
You shattered my dreams one by one

One by one we broke each vow we made

It was you who lied
It was me who paid

As sure as there's a heaven beyond the sun

We'll pay for our lies one by one

How can you go to sleep at night
Don't old memories make you long for daylight

You'll pay the price after having your fun
You'll regret each mistake one by one

The love I treasured you so fo' go
For worldly goods you left me cold

You're happy now but the time will come
Your boss loves will leave you one by one

One by one we broke each vow we made

It was you who lied
It was me who paid

As sure as there's a heaven beyond the sun

We'll pay for our lies one by one
