

Find A Way

Laura Marie

I'll find a way to be nice when I want to be unkind
I'll find a way to be quiet when I want to speak my mind
I'll find a way to be here even though you don't need me
I know I cannot be right all the time. It's not possible

And, time will not always move
Time will not always move
Time will not always move so slowly

When I find a way to be loved in a way
that you'll know you're loved
And I can push you clear of my solid grip on fear
And I know my mind so my heart won't be far behind
And you'll know where I am even though
you don't understand

How time will not always move
Time will not always move
Time will not always move so slowly

Oh but, everybody knows...everybody knows
Everybody knows how you can't see when you're too close
But I'll find a way, I'll find a way, I'll find a way
