

On & On

Laura Marie

The moment you took the stage I was yours
Every syllable on your tongue touched my nerves
Between what you sang and what I heard you threw me

I know every thought inside your head
You dream like me but play the dream instead
I'm waking up and going back to bed without it
On & on, the way you play me
On & on, I'm blown away

I could have a million words inside my mouth
But I'm tongue tied paralyzed in doubt
Maybe your lips on mine could ease them out
On & on, on & on, I'm blown away

I'm soaking in the memory
Drinking up words that pulse and ring
You're shaking up every single part of me
On & on, the way you play me
On & on, I'm blown away
Hey, I want you alone
there's nobody else, nobody else
Hey, I want you alone
there's nobody else, nobody else

I could have a million words inside my mouth
But I'm tongue tied paralyzed in doubt
Maybe your lips on mine could ease them out
On & on, on & on, I'm blown away
