

Roadnotes

Laura Nyro

Gypsy fever
I've been here many times
The motels
The trailers
The netted tents
Of the road
I've been on these lands
Through space time
In my own time
In my own time, baby
Independently wanting you
I've been wanting you
Wanting you
Wanting to
What's a woman to do now?
Lover
That's right
Me and my friends
Somewhere on the road
Child and dog play
Winds, they blow
And blow
Happy birthday, thirties
What do I want?
My candles glow
Baby, I want everything
Just everything
I want everything
That you can bring
'cause my heart needs to sing now
Lover
That's right, lover
You are here
Music in my ear
A wild dear
A magic potion
Hold me tight
Angel of the night
Hold me right
'cause my love is the ocean
Give you everything
Just everything
I want everything
That you can bring
To set the night in motion
Lover, that's right, lover, that's right
Music of the night
I hear music of the night
And I'm here lovin' you
Baby, I'm lovin' you
Baby, I'll be lovin' you
Baby, I've been lovin' you
Lovin' you, yes
