

Another Space And Time

Laura Veirs

In another space and time
California's not burning
And the seas don't rise

I'll meet you there and I
Will remember the day
That the internet died
We found peace of mind
Peace of mind
We found peace of mind
Peace of mind

What do the gurus say?
If you're able to do nothing
You'll be doing okay

I'll try it tomorrow, not today
I'll be like Old Survivor
Taking in the light as I sway
As I sway, as I sway
Growing quiet in my crown
Now, now, now
Growing quiet in my crown
Now, now, now

In another space and time
Space and time

In another space and time
When California's not burning
And the seas don't rise, rise

I'll meet you there and I (space and time)
Will remember the day
That the internet died
We found peace of mind
Peace of mind
We found peace of mind
Peace of mind (peace of mind)
We found peace of mind
Peace of mind
(Space and time)
