

## Dirty Sheep

Laura Veirs

The sky's a dirty sheep  
And someone's got to shear it  
This life is a messy table  
And someone's got to clear it

There's a heavy, heavy hand  
Weighing down the black sheep clouds  
Everything is like lead  
I wanna see the sun

Bust out your log  
And bust your dog

Politics on the sidewalk  
Scalding color sidewalk chalk  
Beneath your sweet 16 candy bar  
He took you away in his car  
Talk was cheap  
So you make 50 bucks for doing much more than talking  
What the fuck

Bust out your log  
And bust your dog

There's a heavy, heavy hand  
Weighing down the black sheep clouds  
And everything is like lead  
I wanna see the sun

Bust out your log  
And bust your log
