

Shape Shifter

Laura Veirs

Shape shifter
Thousands in the air
Moving as one
Magic flocks the reaches
I'm speechless on the ground
Black blizzard round a cold grey sun

Winter's on the way
I think we're gonna make it out
If we stick together now
If we stick together now

Too many times we fight
Turning day into night
Kicking that fire right out
But the cools underneath they burn
I turn to you and fine
I love the very one I spurned

Winter's on the way
I think we're gonna make it out
If we stick together now
If we stick together now

Shape shifter
Thousands in the air
Moving as one
