## **Through the Glow**

Laura Veirs

Flat stone skipping the surface sink Into the golden deep Crawl inside like a honeybee Creep into the heart

Give me snow and give me salt Troubles cracks and creaks Watch 'em tumble to the sea Come back 'round you see

Can you hear the cliffside's heart Bubbling red and deep? When you're slow not stop and start You can burn a memory

Oh-oh-oh-oh...

Gather with me like the gathering clouds Smooth the twisted lines Float above the quilted plains Up to the stars we'll strain

I can hear the sparkling dark Calling me to swim Through the sound waves Through the glow Into the undertow

Oh-oh-oh-oh...
