

# Here For You

Laura Welsh

I'll be here for you  
I will be here for you

I know we'll make it  
I know we'll make it through  
One thing is for certain I'll be here for you  
Don't know you're thinking  
Don't wasting what we do,  
One thing is constant that I'll be here for you

We all go through changes, run to different places,  
That doesn't mean that we have to part  
And when you feel like nobody's on your side  
Please believe I'm never too far  
Never too far  
Never too far  
Never too far  
Never too far

I, I I will be here for you  
I will be here for you  
I, I I will be here for you  
I will be here for you

Where do we sunshine, where the heavy rain  
Who's on the pressure I had reason...  
We all go through changes, run to different places,  
That doesn't mean that we have to part  
And when you feel like nobody's on your side  
Please believe I'm never too far  
Never too far  
Never too far  
Never too far

I, I I will be here for you  
I will be here for you  
I, I I will be here for you  
I will be here for you  
I will be here for you  
I, I I will be here for you  
I will be here for you  
I, I I will be here for you  
I will be here for you

I'll be here for you  
I will be here for you

And when you cast away and you feel like home,  
I'll try to find you  
I'll try to catch you home!

I, I I will be here for you  
I will be here for you  
I, I I will be here for you  
I will be here for you  
I, I I will be here for you  
I will be here for you

I, I I will be here for you

I will be here for you

I will be here for you
