

Burning Up

Laurel

Sickness in the city, I got lost
Giving all my love
To something I don't want
Here we are
Nervous in the crowded summer nights
Treading lows, crashing from highs
With eternal dynamite in my heart

With all these eyes upon me
I get louder on the stage
We find my truth stands in the way
That I've been tryna fight
Everything goes black and white

Think I'm burning up
Got a real bad fever
I'm standing out on the edge
Nothing's holding me back
Life moves fast and I try to hold on
But I'm jumping off

Chasing down a quiet episode
On these quaint suburban roads
I'm obsessing over more
Here it comes
Falling through this ocean of a night
I take back all of my spite
All those years of starless skies come undone

And all those dirty promises
Got high on manifesting this
A future full of limousines on overdrive
Things are spinning out, and I

Think I'm burning up
Got a real bad fever
I'm standing out on the edge
Nothing's holding me back
Life moves fast and I try to hold on
But I'm jumping off

Think I'm burning up
Got a real bad fever
I'm standing out on the edge
Nothing's holding me back
Life moves fast and I try to hold on
But I'm jumping off
I'm jumping off

Burn, burning up
Don't wanna feel bad
Love, love, love, love
I got the weight of the world
Calling me home
Burn, burning up
Don't wanna feel bad
Love, love, love, love

I got the weight of the world
Calling me home
