

You keep it minimal  
It's just enough to feed my bones  
And in the hard light  
I'm crying out for more  
Come and turn it on  
And run away from your feelings

And I don't get your dark way of living  
Always get me dreaming just to let me down  
I guess we're scared to leave  
Oh come on, please  
Why don't you

Crave me  
And darling I've been saving  
All of my energy  
When I come and see you're drinking on the streets  
And sipping like  
You make me wanna say goodbye  
And I've been feelin' free for today  
Then I met him  
And I pretend that I don't crave you more

You keep it minimal  
Sometimes I can't feel you at all  
But every now and then  
You make me wonderful  
Live on the edge with me  
'Cause we don't really need the rest of them

But I don't get your cruel way of giving  
Oh then taking it right back to the start  
I guess I'm scared to breathe  
'Cause all I think I need is you to

Crave me  
And darling I've been saving  
All of my energy  
When I come and see you're drinking on the streets  
And sipping like  
You make me wanna say goodbye  
And I've been feelin' free for today  
Then I met him  
And I pretend that I don't crave you more

Race round I  
Don't really know, just I  
Darling, I stayed  
Even when you're gone again

Crave me  
And darling I've been saving  
All of my energy  
When I come and see you're drinking on the streets  
And sipping like  
You make me wanna say goodbye  
And I've been feelin' free for today

Then I met him  
And I pretend that I don't crave you more
