

# Goodbye

Laurel

Oh I wish you were to call, or come back sooner  
This town feels different now you're gone  
And everywhere I look, you're in my eyes  
'Cause I love you, baby I'm dyin'

Oh this city held my hands  
Told my friends you weren't [?]  
When you didn't come and I would cry  
But I guess that you're clean of me now

Too much too soon  
Gotta call it off  
Too much to lose  
Maybe you didn't love  
Goodbye baby, it's incomplete without  
It's incomplete without you

Play we're cool until a deeper love  
Don't understand yah  
Giving me days just to cry you dry  
The silence, oh it's just how you talk  
And I'm clean of you now

Too much too soon  
You gotta call it off  
Too much to lose  
Maybe you didn't love  
Goodbye baby, it's incomplete without  
It's incomplete without you

Too much too soon  
You gotta call it off  
Maybe you didn't love  
Goodbye baby, it's incomplete without  
It's incomplete without you
