

Happy Man

Laurel

I'm a troubled man, I'm changed by the things I do
True but it's funny how they all remember you
It all could be different, try to do something new
Give it everything, oh, wanna be a happy man too
Got to understand, blamed by the friends I lose
Who's getting out of hand to think they depend on you?
It all could be different, try to do something new
Give it everything, oh, wanna be a happy man too

Buy yourself a dream, how's it looking?
Buy yourself a car and a house to live in
Get yourself a girl, someone different
Buy yourself a dream and you won't need nothing

Gonna run it 'round, strange but it just won't do, no
When it's coming down, taking a hold on you
It all could be different, try to do something new
Give it everything, oh, wanna be a happy man too

Buy yourself a dream, how's it looking?
Buy yourself a car and a house to live in
Get yourself a girl, someone different
Buy yourself a dream and you won't need nothing

Closer
Turning it over
It all could be different
It's time to do something new
Give it everything, oh, wanna be a happy man too

Buy yourself a dream, how's it looking?
Buy yourself a car and a house to live in
Get yourself a girl, someone different
Buy yourself a dream and you won't need nothing

Buy yourself a dream, how's it looking?
Buy yourself a car and a house to live in
Get yourself a girl, someone different
Buy yourself a dream and you won't need nothing
