

Let Go

Laurel

I won't move on and say no worries
Scream while I'm running

Nighttime flight time
Caught like a heart that's craving
Is it you or me fading away

Never knew, never knew, never knew how
I let you back in then you let me back out
You say don't worry you won't
But I can't help if I don't let go

Never did, never did, never did see
How you talk yourself up like you're better than me
They say don't worry you won't
But I can't help if I don't let go

Blue shade, arms raise
Dance like fool under pressure
Step alone its better this way

Chase home, as it runs along
Fast out of sight forever
Every time I look its turning away

Never knew, never knew, never knew how
I let you back in then you let me back out
You say don't worry you won't
But I can't help if I don't let go

Never did, never did, never did see
How you talk yourself up like you're better than me
They say don't worry you won't
But I can't help if I don't let go

I know I said I'm yours
I know I said I'm yours
But oh no, started moving on

I know I said I'm yours
I know I said I'm yours
But oh no, don't call me I'm gone

Every time we say goodbye
I can't even sleep it don't feel right
And You can tell me it's what you want
Can we keep playing off the board?

Never knew, never knew, never knew how
I let you back in then you let me back out
You say don't worry you won't
But I can't help if I don't let go

Never did, never did, never did see
How you talk yourself up like you're better than me
They say don't worry you won't
But I can't help if I don't let go
