

# Nicotine Dreams

Laurel

Sleep on the front lawn  
God how we're so bored  
Bodies lost inside the crowd

Drunk all our money  
In with nicotine dreamers  
Heads lost inside the clouds

I said I would wait for you forever  
You said you'd die for me right now  
You'd die for me

Kingdom in love  
I can tell by the way you say my name  
I'm what you want  
We're just nicotine dreamers out on the road  
Say, Oh Virginia  
He's the king and I'm his queen  
Best he's ever seen  
Oh buttercup, take the sun with me you're the dark star in the sky

Saw the future in my crystals  
I'm dancing with the devil  
Picture me with his crown

Getting lost in strip clubs  
Baby, hallelujah  
Eveything I want I found

If I said I'd wait for you forever  
And you said that you'd die for me right now  
You'd die for me

Kingdom in love  
I can tell by the way you say my name  
I'm what you want  
We're just nicotine dreamers out on the road  
Say, Oh Virginia  
He's the king and I'm his queen  
Best he's ever seen  
Oh buttercup, take the sun with me you're the dark star in the sky

Nicotine dreamers, wonder  
Wide eyes boy, am I glamorous as pearls  
And all the other girls  
Sell me out my lover, no other  
Makes me feel as sweet as you do  
It's too much to loose

Kingdom in love  
I can tell by the way you say my name  
I'm what you want  
We're just nicotine dreamers out on the road  
Say, Oh Virginia  
He's the king and I'm his queen  
best he's ever seen  
Oh buttercup, take the sun with me you're the dark star in the sky
