

Take It Back

Laurel

Don't really know what you'd found
Sometimes it's darker when you're in the house
So I run away
Life moves, I lost the way
Out in the suburbs, but it's home here

Found the way I know, baby let me go the way
That I need to, I'm not coming back to you

I take it back at night
Cause if only I keep falling deeper and
[?] alone again
You'll keep getting me down

Every time I run away
I come right back again

Always it finds me then hurt
It's always about you my love
So I'll let it breathe

You're gone getting sober
And I'm getting older
Sometimes you'll freak at me
Is this is how we're choosing
Maybe we're abusing
The life we're meant to live

But then I take it back at night
Cause if only I keep falling deeper and
[?] alone again
You'll keep getting me down

Every time I run away
I come right back again

'Cause he [?], he keeps me goin' yeah
And I love it when [?] free
When he get me goin' yeah

You're my sun after midnight
You're in your car
Darling you're alright
Darling is this it?
Tell me gets better when
I'm in the middle of [?]

Take it back at night
Cause if only I keep falling deeper and
[?] alone again
You'll keep getting me down

Every time I run away
I come right back again

'Cause he [?], he keeps me goin' yeah
And I love it when [?] free

When he get me goin' yeah

'Cause he [?], he keeps me goin' yeah
And I love it when [?] free
When he get me goin' yeah
