

Wild Side

Laurel

Falling back outta time
While we're making up on the telephone
Call me crazy 'cause I
Never know, never know how to let go

I can't get enough of you
When I make you want to say you

Love me, say you're never gonna leave me
Even if it's only for an evening
Next time you think of walking away
I'll take you to the wild side

Yeah, to the wild side, yeah
Yeah, to the wild side, to the wild side
Ayy, come on, ayy
Yeah, to the wild side

Left a flower on my bed
I guess it's for the words you never said
I've tried sleeping alone with these undertones
There's no, there's no hope

I can't get enough of you
Tell me what I want to know

Love me, say you're never gonna leave me
Even if it's only for an evening
Next time I start walking away
Take me to the wild side

Yeah, to the wild side, yeah
Yeah, to the wild side, to the wild side
Ayy, come on, ayy
Yeah, to the wild side

Yeah, to the wild side, yeah
Yeah, to the wild side, to the wild side
Ayy, come on, ayy
Yeah, to the wild side

If only I told you that, darling
Stop looking further, look for no other
If only you could hold me down, darling
I'd need you more than somebody better

Yeah, come on
Tie up the bed, come on
If only we could settle down, darling
Stop looking further
Look for each other

Love me, say you're never gonna leave me
Even if it's only for an evening
Next time you think of walking away
I'll take you to the wild side

Yeah, to the wild side, yeah
Yeah, to the wild side, to the wild side
Ayy, come on, ayy
Yeah, to the wild side

Yeah, to the wild side, yeah
Yeah, to the wild side, to the wild side
Ayy, come on, ayy
Yeah, to the wild side
