

# Wild Things

Laurel

Heavy breathing  
I stay up with my feelings  
They got me hooked 'til sunrise  
Chasing troubles  
I'm dealing with my devil  
She gets off when we fight

So I got high  
All July  
On a dream  
And all my thoughts  
Got lost  
On the beach

So here we go again  
Wild things, blazing  
Lighting up the dark  
Reckless, wasted  
Rebels in the wind  
Cool cats craving  
The real thing

So here we go again  
Wild things, blazing  
Racing to the sun  
Burn out, brazen  
Everywhere we go, I'm still craving  
The real thing  
The real thing

Fallen angel  
I got a call from God  
He wants me to turn myself in  
Woke in darkness  
I got so close to hell  
On the way back to heaven

And so I'm dry  
Except the crying  
Defeat  
And all my friends  
Try pretend  
That I'm free, I am

So here we go again  
Wild things, blazing  
Lighting up the dark  
Reckless, wasted  
Rebels in the wind  
Cool cats craving  
The real thing

So here we go again  
Wild things, blazing  
Racing to the sun  
Burn out, brazen  
Everywhere we go, I'm still craving

The real thing  
The real thing

I hit the ground  
Been coming way down, down  
I loved you, baby  
Loved you way too loud  
I chase the pain  
Into an ocean wave  
I loved you, baby  
Don't love me the same

So here we go again  
Wild things, blazing  
Lighting up the dark  
Reckless, wasted  
Rebels in the wind  
Cool cats craving  
The real thing

So here we go again  
Wild things, blazing  
Racing to the sun  
Burn out, brazen  
Everywhere we go, I'm still craving  
The real thing  
The real thing
