I'm like quiet from small town  
He's like honest with a big mouth  
Watch him try to figure me out  
I can't even think straight

And I don't know how to analyze  
What's going on in my mind  
He's got me blurring all the lines  
And I can't really concentrate

He's what's keeping me up  
When I turn off my night light  
But I know that he's going home to her tonight

You strike a match and I feel the rush  
But baby this is dangerous  
You fan the flames watch me suffocate  
While you're doing just fine  
And the alarms are going off  
And the sprinklers are turning on  
But if you asked me to stay  
Baby I'd be up in smoke before I'd put out these

Flames

And I know I gotta get out  
Cause I'm in way too deep now  
You just say my name  
And everything's okay again

You tell me bout your family  
I tell you bout my exes  
I can't stop staring at you putting on your headband  
With you I'm never bored cause everything you say is something I have never  
heard before

You're perfect I think you deserve the whole world  
I hope you know that and I hope so does your girl

You strike a match and I feel the rush  
But baby this is dangerous  
You fan the flames watch me suffocate  
While you're doing just fine  
And the alarms are going off  
And the sprinklers are turning on  
But if you asked me to stay  
Baby I'd be up in smoke before I'd put out these

And I'll cry in my car and pretend it's a movie  
I've never experienced this thing you're doing to me  
From the start I didn't stand a chance  
It's just the way that you are it's the way that I am

There's nothing I can do now  
But slowly turn to ashes on the ground

You strike a match and I feel the rush  
But baby this is dangerous  
You fan the flames watch me suffocate  
While you're doing just fine  
And the alarms are going off  
And the sprinklers are turning on  
But if you asked me to stay  
Baby I'd be up in smoke before I'd put out these
